The complaint time is between 0630 to 0800. I spoke with the owner of the Deli who advised that she is uncomfortable with the homeless people who usually are there in the morning, mostly when the temperature is cold, but advised they have not been there over the past week since the weather got better. The problem explained is homeless people are showing up as soon as she opens, buy one item and then sit at a table for a long time. I am attempting to set up a meeting with Mr. Grimes and discuss all current matters around the businesses, and adjust my schedule accordingly to assist with particular systemic issues.

MEMORANDUM

January 18, 2005

TO: T.N. Treschuk, Chief of Police

FROM: Jan Seilhamer, Community Services Officer

SUBJECT: Meeting with Montgomery County Police Community Services Officers

I was invited to attend the monthly Community Services Officers meeting with the Montgomery County Police Department. Each Community Services Officer discusses what they are doing in each district and discuss problem areas.

We discussed some programs we have in common, such as National Night Out and Project Lifesaver.

The County is still training officers for the Project Lifesaver program. They have 2 receivers and 7 transmitters. It appears that the program will be piloted in Bethesda. They advised that Gaithersburg City may be purchasing two more receivers to keep at their department. The County Police are trying to co-ordinate with other jurisdictions in the county to help offset some of the costs. They were advised that the Rockville City Police Department has already has the equipment and we have already launched the Project Lifesaver Program.

National Night Out was discussed, and it appears that the City of Rockville, by far, has the most block parties. Officer Prather, the CSO for Rockville District, advised people outside the city limits in the 1D area aren't really interested in participating in events such as National Night Out. He advised on this past National Night Out, he had ZERO block partys to attend. I advised that the Rockville City Police Departments sponsors approx. 50-60 block partys on National Night Out. It appears that for the Rockville area, that the majority of the citizens request programs from the Rockville City Police Department before requesting assistance from the County Police. We also discussed training issues, such as the Crime Prevention Through Environmental Design class that is going to take place in Ocean City, Maryland in the spring. It appears that the county is trying to get into Business Security.

Officer Prather is holding a Business Safety Class at the Ramada on Rockville Pike on March 17th and is going to invite local businesses. They will discuss issues such as credit card fraud and other safety issues that relate to businesses. He extended an invitation to the Rockville City Police Department to attend and give a presentation.

The County Police are going to continue to include me in on their monthly meetings so we can keep up with what programs are being requested and offered in the city and county.

Page 2
January 18, 2005

I believe it was a successful meeting. It can give me some ideas what we can do to improve the programs offered by the Community Services Office.

Dear Corporal Jan Seilhamer,

Thank you for your engaging and "down to earth" presentation on community policing and neighborhood safety on January 23, 2006, at Richard Montgomery High School. I received many positive comments about your presentation after your departure. The residents in attendance especially appreciated your knowledge of community issues.

Your experience in working in school and community settings with youth and families was crucial to relating well to the residents in attendance. I appreciate the attention and sensitivity you paid to language and culture. The respectful nature of your remarks is a powerful tool in building effective communication between City Rockville Police and members of the Hispanic community.

In short, I once again express my heartfelt thanks for joining us at Richard Montgomery High School and hope you will consider joining us again in upcoming community meetings.

Thank you.

Burt Hall
Rockville Dept. of Recreation & Parks
111 Maryland Avenue
Rockville, MD 20850

Dear Mr. Hall:

I want to extend my heartfelt thanks to everyone at the Department of Recreation & Parks who came and shoveled and salted the parking lot and sidewalks at the Beall-Dawson House Park on the afternoon and evening of December 15. As you may recall, the weather that day and night was horrible with snow, rain, and sleet mixing together to create an icy sheet everywhere. Our annual Holiday Fete was scheduled for that evening, and we really could not cancel it. In response to a call, a crew from the Department of Recreation & Parks came shortly before the event to take care of the walks and parking lot, and they appeared later in the evening to work some more. Their work helped ensure that our visitors could safely enter the Beall-Dawson House for the party.

We really appreciate the quick response and the work that went into helping us have a safe evening. Thank you so much!

Sincerely,

Mary Kay Harper

Ms. Betsy Thompson
Recreation Program Development Coordinator
City of Rockville, Department of Recreation and Parks, Bikeway Program
111 Maryland Avenue
Rockville, Maryland 20850-2365

Dear Ms. Thompson:

It is my pleasure to inform you that the City of Rockville, Department of Recreation and Parks, Bikeway Program's application for a National Recreational Trails Program (RTP) award has been approved in the amount of \$15,000.00 for the purchase and installation of sign posts and signs for the bikeway signage system to be installed throughout the City of Rockville. The RTP, an assistance program of the Federal Highway Administration, provides funds to the States to develop and maintain recreational trails and trail-related facilities for both non-motorized and motorized recreational trail uses. Recommendations for awards are the result of a careful review by the State Recreational Trails Advisory Committee, consisting of private-sector, public-sector, and user representatives as required by the RTP. The set-aside money enables us to make awards to interested parties for use in recreational projects in local jurisdictions.

The cooperative effort of federal, state and local governments enables us to improve access to Maryland's natural and recreational resources – not just in remote regions, but also in urban and residential areas. It is vitally important to create hiking paths and trails within our neighborhoods. These facilities allow people of all ages and abilities to enjoy walking, hiking, bicycling, and other forms of recreation while growing in their awareness and appreciation of Maryland's natural resources.

Thank you for your participation in this program. If you have any questions, please do not hesitate to contact Mr. Terence Maxwell, Office of Environmental Design, State Highway Administration (SHA), at 410-545-8637, toll-free 800-446-5962 or, via email, at tmaxwell@sha.state.md.us. SHA will be pleased to assist you.

Sincerely,
